The will of the late James Hamilton, who resided at Sixty Sixth street, was filed today for probate. It bears date of April 6, 1895. It bestows the bulk of the widow's lot on Sixth street, between Fulton and Oak streets, with two dwellings, to be held by her during her life. In the event of the widow's death, the property is to be held in trust by Frederick W. Hamilton and William Henry Hamilton, sons of the deceased, till the youngest child becomes of age. The property is then to be divided between the children—Edward, Frederick William, William Henry and Florence. Mary Hamilton and Daisy Asbury Hamilton are executrices. The will was witnessed by Charles Alexander Smart and John Horst Leitch.

and a great deal of speculation as to the cause has been indulged in by politicians. The district in which Schmitz was expected to be very strong had not polled a third of their vote when day was half over. Schmitz men said this was due to the fact that the workingmen were waiting for the noon hour. They are allowed two hours away from their places of employment, and they probably intended to take the time in the afternoon. It is reported that many factories and other institutions where large numbers of men are employed have closed for the day at noon, and because of this the men presumed that the Schmitz men would be at home in droves from 1 to 5 o'clock.

THE SOUTH AFRICAN TRAGEDY.

Occasional reports of desperate encounters draw passing attention to the slow tragedy that is being enacted in South Africa, but the civilized world manifests only momentary gleams of interest and then relapses into indifference. Notwithstanding all that has been said about humanity and Christian spirit in modern governments, sentiment seems a less controlling power in international politics than it ever was before. Otherwise the horrible death struggle in the Transvaal could not go on so long without protest or interest.

It is the destruction of a people. Their country has been desolated and their homes destroyed. Now they are being slain day by day in nameless skirmishes in the drear wilds made drearier by fire and sword, and their civilization torn up by the roots in a warfare more savage than has been seen in modern times. If we except the campaign of Weyler in Cuba, it is pathetic to see a brave Christian people fighting against the conquest of their country with again despair.

It is awful that Christian diplomacy has no remedy for such a condition, and that the world must listen to the occasional moans and sound of blows that come up from the veldt where the remnant of a brave people are making their last stand in a hopeless battle for independence.

There is a great horror in the intense quietness of this death struggle. The herdsman that will not give in but fights a losing fight to the last gasp with no outcry should excite the pity and admiration of mankind regardless of the rights and wrongs of the quarrel stood, but even the newspaper correspondents and the professional sympathizers of the press and the pulpit seem to have dismissed the South African war from their attention as stale and uninteresting. So Europe once saw the Dutch ancestors of these same Boers wage a war of extermination with the standards. No such result can be expected for the Boers, for the stern grip of England is steadily closing over their hapless land, and they are slowly falling before the sickle of death.

If any other nation were waging such a war against a weak people, every journal in England would thunder indignation, and surging mass meetings in Hyde Park would testify the sympathy of the British populace with the oppressed. Alas, conditions change sentiments.

JUGGLING CANAL DIPLOMACY.

The cancellation of the canal treaty with the United States by Nicaragua is probably not a very serious affair, but that it should be done simultaneously with the arrival of Lord Pauncefote with a new canal treaty between Great Britain and this country is somewhat significant. There may be no connection between the two events, but the coincidence is nevertheless odd. It is also worthy of note that the Panama Canal Company has an agent in Washington trying to dispose of the De Lesseps white elephant to Uncle Sam. It is well known that the French government is very much interested in having the United States take this bankrupt project off the hands of the French protectors on terms which would give France a quasi-superiority over the canal.

It is not at all unlikely that the diplomatic representatives of both France and Great Britain have had a hand in this particular juncture—England to obtain greater concessions in the new treaty and France to promote the sale of the Panama Canal. This is mere conjecture of course, but such a procedure would be in harmony with past experiences. England would naturally prefer that the United States would build the Nicaragua Canal to having France complete the Panama ditch, but it is to the interest of both nations to embarrass the American Government at this time.

While the people of other sections of the country will sympathize with the demand of the Southern whites that the qualities of good citizenship be developed in the negroes as a preliminary to investing them with all its privileges, they are likely to strongly disapprove of the spirit shown in some quarters to delay them the opportunities to obtain the education and industrial training that would fit them to exercise the full rights of citizenship. It is not fair to keep the negro ignorant and untrained and then condemn him for not being otherwise. Give him a fair show and let him do the rest.

The workings of the pure food law which has just gone into effect in New Jersey will be watched with great interest throughout the country. The State Board of Health has been charged with the enforcement of the law, the provisions of which are very drastic. Every article of diet is subject to regulation and severe penalties are visited upon those who sell adulterated or impure foods run-down by the Health Board. This law is aimed at the food of imitations and deleterious compounds thrown on the market.

Roosevelt is coming West to hunt big game. Nothing is too mammoth a proposition for him as was shown by the way he went after the Prehensibility and everything else he has undertaken. He is one of those thoroughbreds who like to play the limit all the time.

NOT BAD FOR OAKLAND.

Portland, Oregon, is preparing to get up a centenary exposition to commemorate the Lewis and Clarke exploration in 1805. By way of advertising the coming event the Portland Oregonian has issued a hand-book giving statistics of Portland's growth and prosperity. By comparison Oakland shows to decided advantage.

With a population of 90,426 Portland's assessed valuation is \$28,855,411. She has 12,187 pupils enrolled in her public schools. With a population of 68,938 Oakland has an assessed valuation of \$41,727,000 on a basis admittedly too low. We have over 13,000 pupils enrolled in our public schools. Portland has 58 men on its police force and a higher rate of taxation. Oakland spends a great deal more than Portland on her schools and maintains a larger police force. No kind of business can be transacted in Portland without paying a license, another point of comparison in favor of Oakland.

Yet Portland is a thriving, prosperous city. Nothing said here is meant to disparage but a comparison drawn only to show that this city is better off than many others of larger population and greater pretensions.

The intimation given by the Chancellor of the Exchequer that the British people must be prepared to bear still heavier financial burdens as a consequence of the South African war is not likely to weaken the popular determination to wage it to a successful conclusion. If the war can ever be truly successful, but it is calculated to set the British taxpayers to look at the matter in a soberer light than heretofore. This war has already cost nearly one billion of dollars and thousands of lives. Of what avail has been this expenditure of blood and treasure? What substantial benefit has accrued to the people of England from it, and what hope of ultimate gain have they as a result of this inglorious war? England has suffered in money and prestige as she has never suffered before. Looking at the increasing bills, our British friends will probably feel that it was an unprofitable speculation.

The friends of the State University will be gratified that President Wheeler has definitely set at rest the persistent rumor that he was likely to sever his connection with the University to take a diplomatic position under the Government. It would have been unfortunate had President Wheeler decided to give up his work here so soon after beginning, and before the fruit of his management, which began so auspiciously, could ripen. For his own sake as well as the good of the University, President Wheeler should remain until the matured results of his control over the University could be seen and weighed at its proper value. He came to us highly recommended, and he has borne himself so as to win respect and confidence. That he has decided wisely cannot be doubted, and it is a cause for gratification.

A RHYMEDLESS RHYME.

The peculiarity about the following verses is that they rhyme to the eye, but not to the ear:

When Willie went to play at golf
He met a leen and lanky wold,
As he sped on the forest through,
And that, you must admit, was rough.
With him at once he raised a row,
But Willie, with one swinging blow,
(Twice boxing taught him how to lead),
Laid out the wold and killed him dead.
Said Willie, "See, you are de trop!"
And not a moment did he stop.
Till he saw that on the heath
The brute lay still, devoid of breath.
For fear that other wolves might come,
He sought at once his happy home,
And left the game of golf at once,
Remaining idle for the nonce.

COUNCIL VOTES ON A
SITE FOR A PESTHOUSE.

CUVELLIER'S CHICKEN ORDINANCE WILL HAVE TO BE AMENDED AGAIN.

At a meeting of the City Council last night there were present Councilmen Bishop, Bon, Courtney, Cuvellier, Dornin, Fitzgerald, Rich, Wallace, Wilson and President Schaffer.

A communication from Mayor Jas. D. Phelan and the Board of Supervisors of San Francisco relative to Chinese exclusion was read and placed on file. The communication requested the co-operation of the Council at the State convention to consider the question of Chinese immigration, which will be held on Nov. 21.

PEST HOUSE SITE.

The Council last night decided to accept the site on the corner of Prince and York streets for a hospital for contagious diseases. The resolution accepting the site at a cost of \$12,300 was unanimously carried, with the exception of Councilman Wallace, who voted no.

Councilman Bon suggested that the price asked for the site was exorbitant and that a suitable lot of the same size could be obtained for \$500 within the center of the city. To a half dozen inquiries from the Councilmen where such a lot could be obtained, Bon answered at the auction sale.

Bishop suggested that the matter go over for two weeks.

Cuvellier asked if the building of the hospital proposed site would not deteriorate the value of the Sather tract, which the city had seriously contemplated buying for a park. Health Officer Von Adolph replied that the hospital would be 1,000 feet from the property and would not interfere with the land for park purposes.

Boyer moved to amend Bishop's motion to lay the matter over for two weeks by taking up the question at once. The amendment carried and immediately afterward the resolution accepting the site on the corner of Prince and York streets was adopted by the following vote:

Ayes—Boyer, Cuvellier, Dornin, Fitzgerald, Rich, Wallace, Wilson, Schaffer—8.

CHICKEN ORDINANCE.

Councilman Cuvellier's ordinance prohibiting chickens from running at large was referred back to the ordinance and Judiciary Committee to be patched up and made agreeable to all sections of the city. This action was taken upon the advice of Cuvellier, who informed the Council that Mayor Barstow had announced his intention of vetoing the ordinance in its present form.

STREET CAR GIVEN TIME.

The resolution directing the Oakland Transit Company to run its San Pablo avenue cars to the foot of Broadway was referred back to the Street Railway Committee. This action was taken upon the advice of Cuvellier, who informed the Council that the company had agreed to keep its promise made through Manager Kelley to Councilman Schaffer.

HARRY MORSE WANTS LIGHT.

A communication was received from Harry N. Morse asking the Council to resolve itself into committees of the Whole and of the City of Wayne and Hanover avenues at night to become acquainted with the necessity of having an electric light placed there to light the way for the vehicles and pedestrians, and also make it possible for the highwaymen to operate in total darkness and hence comparative security.

The Change of Life

Is the most important period in a woman's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the head until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous, nervous trouble. Those hot flashes are just so many calls for nature for help. The nerves are crying out for assistance. The cry should be heeded in time. Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It builds up the weakened nervous system, and enables a woman to pass that grand change triumphantly.

"I was a very sick woman, caused by Change of Life. I suffered with hot flashes, and fainting spells. I was afraid to go on the street, my head and back troubled me so. I was entirely cured by Lydia E. Pinkham's Vegetable Compound."—Mrs. JENNIE NOBLE, 5010 Kersey St., Germantown, Pa.

PERSONAL AND SOCIAL NOTES.

Company Is Preparing for a Grand Ball on Thanksgiving Eve.

The committee in charge of the annual ball of Company A, Fifth Regiment, under the management of Lieutenant Peterson, is industriously working on the elaborate decorations of the hall. Two thousand sixteen candle-power electric lights will be used; six large wooden arches will span the hall, each containing one hundred lights. Between each arch on either side will be a large star, instead of flag of burning and colored lights. The committee is endeavoring to do out all previous occasions of the kind, and the affair will surpass in grandeur anything ever attempted in Oakland. The ball will be held on Thanksgiving eve.

Thomas Dignan visited friends in Vallejo Sunday.

Mr. and Mrs. Sathman left this week for the East, where Mr. Sathman has business interests.

Mrs. S. T. Morgan and pupils will give a musicale on Friday at 3 p. m.

Miss Elizabeth Scaphan will spend the first week of November in New York city visiting Mrs. Philip Verrill Nichols and daughter.

Rev. and Mrs. John Thompson, 1350 Franklin street, celebrated their golden wedding anniversary. A large number of guests were present. Those who assisted in receiving were: Miss Florence Britton, Miss H. M. Sherwood, Miss Simmons of Melbourne, Australia, who is a guest of her uncle, Benjamin Smith; Miss Elizabeth Brewer, a sister of Dr. Thompson, and Walter T. Kellogg. About 200 invitations were sent to places in widely different parts of the United States, and some even to England.

Dr. and Mrs. Thompson were married in Weatherfield, Ill., in 1851, and since then they have resided in several different States, in all of which he has been engaged either in clerical work or in connection with various Bible societies. At present Dr. Thompson is president of the California State Bible Society. One of the most honored guests this evening was Miss Lucia Needham of San Francisco, who attended Mrs. Thompson as bridesmaid fifty years ago.

Miss Juliet Garber was the hostess on Friday evening at the first of a series of delightful dinner parties to be given by her at her home in Berkeley. Flowers were laid for Miss Susan Blum and Miss Mattie Livermore of San Francisco, Miss Florence Dunham, Miss Leslie Green, Maxwell M. Nutt and Burbank Smith of San Francisco and Frank Stringham.

Lieutenant-Commander and Mrs. George H. Stafford, U. S. N., will arrive here during the week from a trip to New York and Washington. They are to stop en route at Denver to visit their nephews, Harry and Marshall P. Dunsbury, formerly of Oakland, and will then proceed to Alaska Island, where Lieutenant Stafford will be stationed.

Mr. and Mrs. George S. Wheaton, nee Palmer, have returned from a wedding journey to points of interest in Southern California, and are spending a month with Mr. and Mrs. Wheaton Sr. at their home, 151 Lake street.

The Grand Opera Season

opens Monday next. From both a musical and fashionable standpoint it promises to far surpass the seasons of years past. Needless to say, at no place in the United States, unless it be at the Metropolitan Opera House, is there a larger assemblage of elegantes or more magnificent display of dress than at the opening night in San Francisco. With this in mind we have specially imported Opera Wraps, Hats and Gowns from New York and Paris. These, together with fans, boas, ruffs, pompons, slippers and gloves for evening wear are now on display in our windows.

CATHOLIC NEWS OF INTEREST.

Concert for the Benefit of the Church of the Immaculate Conception.

At the recent annual election of officers of the Holy Angels' Sodality of Sacred Heart Church, Fortieth and Grove streets, greater interest was taken by the members than at any election in recent years. After much friendly rivalry "doing politics" for their respective candidates, the total result of the ballots cast showed the following successful officers, who will serve for the year 1902: Miss M. Gallagher, president; M. Clarke, vice-president; L. Costello, secretary; G. McKenny, librarian; and councilors, Misses T. Costello, M. Johnson, B. Harty, L. Friel, E. Studditt, L. Higgins, A. Flynn, K. McDonald, and C. Hahn.
Stone work has been commenced on the new Sacred Heart Church now in course of erection at Fortieth and Grove streets, the site of the old church. Work has been advancing rapidly and from the perspective furnished the parishioners of Father Serdan's church may feel proud of their handsome new edifice.
The Holy Angels' Sodality of the Immaculate Conception has been advancing

EVENING SCHOOLS WILL NOW BE KEPT OPEN.

DIRECTOR CLIFT SPRINGS A TYPEWRITERS CAUSE A LONG SURPRISE IN REGARD TO SUPPLIES.

The Board of Education met in regular session last night and decided to re-open the night schools for a period of two weeks.
Immediately after roll call, Superintendent of Schools McClymonds read a communication from Mayor Barstow bearing on the case, which was as follows:
"THE MAYOR'S OFFER.
"To the Honorable, the Board of Education of the City of Oakland—Gentlemen: In order that the important work of the Evening School of Oakland may be continued without interruption, and the teachers be paid in full for their labor, I hereby offer to your honorable body a personal guarantee to furnish and pay, in full, for the term of two weeks from this date, all salaries of such teachers in the Evening School as are not payable from the High School fund."

"ANSON BARSTOW,
"Mayor of the City of Oakland."
"Dated at Oakland, Cal., November 4, 1901."

When Superintendent McClymonds had finished the reading of the Mayor's offer, Director Clift moved that the offer be accepted.
The Board was about to take a vote on the subject when Director Isaacs arose and pointed out that the action of the Board at its last meeting which closed the night schools had not been reconsidered. He said that, perhaps, the proper procedure would be to first reconsider the resolution which closed the schools and then, if the Board wished to adopt Director Clift's motion, the proceedings would appear more regular. He moved an amendment that the resolution which closed the schools be reconsidered and also that the schools be re-opened for two weeks and close November 14th.

His amendment was accepted by Director Clift and the Board by a unanimous vote adopted the motion as amended.

MAPS NEEDED.
A number of requisitions for supplies were read. The chair asked what would be done with them, taking occasion, at the same time, to remark that they called for a number of maps.
Superintendent McClymonds said that maps cost between \$3.50 and \$4 apiece. Many of these were worn out, and it took quite a number of maps to go around among 230 rooms.
The requisitions were allowed.

BUYING COAL.
Then came the reading of a number of bills, and among them was a couple for coal, the amount of which was in the vicinity of \$900. To these Director Clift objected on the ground that they were not in accordance with the charter. The charter, he declared, required that all supplies costing more than \$100 should be obtained by means of a requisition on the Board of Public Works. Ordinance 1688 also required that this should be done, namely, that a requisition should be made upon the Board of Public Works, even where a firm had a contract for supplying goods, because the contract was simply to fix the price of the article, whereas the requisition upon the Board of Public Works was to be a check for the Board of Education.
Taylor had the contract to supply the coal, but the bill in question were larger than were allowed to be contracted save in the manner directed by the section of the charter and by the ordinance referred to.

McClymonds DISSENTS.
Superintendent McClymonds did not hold the same opinion on the subject that Director Clift did. He said he did not think that the Council could pass an ordinance directing the Board of Education how to transact its business. He said he did not think the Council could pass such an ordinance any more than it could pass an ordinance directed at the Board of Education of San Francisco. He did not believe that the charter said that where there was a contract, a requisition had to be made on the Board of Public Works. He was certain that the Council could not pass an ordinance telling the Board of Education how to conduct its business.

Director Clift read Section 118, which provides that all supplies required for the departments, when the cost of those supplies exceeded \$100, were to be procured by means of a requisition upon the Board of Public Works.
Superintendent McClymonds asked if there was not a section of the charter which made the limit \$200.
Director Clift said that if the Board had been acting in the premises

DISCUSSION AMONG MEMBERS OF THE BOARD.

in that way in the past, it had been acting in an informal manner.
Director Clift moved that the matter be referred to the Judiciary Committee.
Director Wilcox suggested that the question be referred to the City Attorney.
Director Clift said that that would be the better course to follow because the Committee on the Board would have to get the opinion of the City Attorney anyway on the subject.
Director Clift asked Director Clift when it first occurred to him that requisitions of the kind referred to had to be made upon the Board of Public Works. Director Clift said it had occurred to him only yesterday afternoon, when he saw the bills in question.
The question was referred to the City Attorney.

TRANSFER FUNDS.
A resolution was adopted requesting the City Auditor and Treasurer to transfer all balances in excess of the school fund of the present year to the fund for 1901-02.

AYING FOR TYPEWRITERS.
Then came up the subject of paying for typewriters used in the High School. Of these there are four Remingtons and one Underwood machine.

Director Clift said he was opposed to the expenditure of any money in this way and of taking any money for this purpose from the High School fund. He thought that what was wanted was a machine which would cost \$350, when they could be rented at a much more reasonable rate till the end of the year. Director Clift voted "no" on the proposition.

A director wanted to know what the rent of a machine would be for a month.
Director Clift said it would be about \$4.

Director Evans said that the machines had been purchased with a general understanding.
Director Evans said that he supposed the machines had been regularly purchased and should, therefore, be paid for.
Chairman Redington said he would vote "yes" on the motion so far as it referred to the Underwood machine and "yes" regarding the other machines.

Director Rutin suggested that the features in the motion be segregated. The idea prevailed. Director Clift voted in the negative regarding the Underwood machine, but in the affirmative regarding the other machines.
The Board was unanimous against paying for the Underwood machine.

CHICKEN POX AND TYPHOID.
The Committee on Rules and Regulations reported recommendations for the adoption of a resolution empowering the Board to suspend scholars who are afflicted with contagious diseases. The list of diseases was supplied by the Board of Health.
The Board was unanimous in recommending that the committee be then adopted.

WEIGHING CAL.
There was then a recurrence to the subject of coal.
Director Clift asked how the coal was purchased.
Superintendent McClymonds said it was purchased under contract.

Director Clift asked who watched the scales.
Superintendent McClymonds said the scales were watched by somebody from the office of the Board.
Director Clift said that he had asked for a report on the weight in the month of shortage in the weight in the purchase of coal.

EXPENSES AND ESTIMATE.
Superintendent McClymonds then read his report of money expended in various ways during the past year and his estimate of expenditures for the rest of the year. He estimated that the deficit of \$1200 in the High School fund for the year.
The secretary was ordered to send a copy of the report to the Mayor, a copy of the report to the Finance Committee of the Council and to the president of that body.

WANT HIGHER SALARIES.
The following protest against the reduction of High School salaries by former students of that school was read to the Honorable, the Board of Education of the City of Oakland: The undersigned, graduates and former students of the Oakland High School, teachers of that institution. These individuals, the oldest and most efficient teachers of that institution, have been reduced in salary during the past year, and because of their ability and earnestness, possessed, at all times, the confidence and esteem of their students. The reduction of their salaries is attributed to the policy of reducing the salaries of the Oakland School teachers as a mistaken attempt at economy and a serious blow to the efficiency of the High School.

RECORDER GRIM MAKES SHOWING.

Business Handled During October Shows the Office Was Well Managed.

The month of October which has just passed has been the most active and remunerative known in the office of County Recorder Grim under the present fee bill.
The receipts of the office were \$2,171.70. The expenses were \$1,828.83. The profit to the county was \$342.87. This is an excellent showing.
It is all the more gratifying because fully three-fifths of the documents recorded were deeds and releases of mortgages, showing that there is a great deal of activity and prosperity in the realty world.

TENDERED RESIGNATION.
Miss Grace Campbell of the Lincoln School tendered her resignation as a teacher as she is about to be married.

The resignation was accepted and Mrs. Crawford of the Durant School was elected to fill the vacancy.
Miss Crawford's place will be filled by the teacher first on the preferred list of teachers.
Miss Mattie Kelsey was granted a leave of absence until the end of the term.
The Board then adjourned.

DIED SUDDENLY DURING THE NIGHT.

Hero of the Philippine Campaign Expires While He Was Sleeping.

William Thomas Peckham, an ex-soldier of the Philippine campaign, died suddenly last night at the residence of his uncle, John H. Hawthorne, 1560 Eighth street, probably of heart failure.

Peckham, up to the time of his death, was in sound health. When he retired last night he did not complain of feeling badly, but seemed to be in cheerful spirits. He was found dead this morning by his uncle.
Two weeks ago Peckham successfully passed the examination of the Southern Pacific Company's Board of Medical Examiners for the position of brakeman.
He served with the Sixth United States Infantry during the campaign in the Philippines. He enlisted at Grand Rapids, Michigan, of which place he was a native. He was honorably discharged.
The deceased was only 21 years of age.

FUN AND SPECIALTIES AT THE DEWEY.

"The Wild Goose Chase" at the Dewey is a most amusing play. It was written to drive dull care away and is successful in the extreme. The principal comedy parts are sustained by Maurice Stewart and Joseph Daney, though the other characters in the play contribute in no small degree to the merit of the piece. There are a number of clever specialists, among whom are Harry Holmes, monologist, Miss Meta George, the Gotham favorite, the Leonards, who are musical wonders, and Mid Thornhill. The play and specialties will be given every night this week.

JUDGE SMITH SHOWS LENIENCY TO BOYS.

John Angle, Herman Sappaire, Darrell Luke and Lawrence Dalton, four minors, accused of petty larceny, were dismissed this morning in the Police Court. They were arrested some time ago at the prosecution of junk men, who were arrested for peddling without a license. The boys were said to have entered the abandoned power house of the Oakland Transit Company at Twelfth and Kirkham, taking brass and other valuable articles, which were sold to the junk men at a ridiculously low price.

SHE WAS ROBBED WHILE ATTENDING CHURCH.

While attending divine services Sunday morning at St. John's Episcopal Church, Miss Chamberlain, residing at 676 Thirty-second street, had her purse stolen. She did not miss the money till the contribution was taken up.
Suspicion has been directed against an aged woman who was begging alms at the church door. She followed Miss Chamberlain to her pew, taking the seat immediately behind her.

TWO DEPUTIES FOR MR. TAYLOR.
Councilman Bishop Introduces a Resolution Providing For More Help.

Councilman Bishop introduced a resolution at a meeting of the Council last night authorizing City Treasurer Taylor to appoint two Deputy Tax Collectors, at a salary of \$75 per month each, whose duties shall be to collect all revenue due the city from licensees.

The resolution embodies the same features contained in the ordinance appointing two Deputy Tax Collectors which was indefinitely postponed at a meeting of the Council committees on Thursday last.

The resolution brings up the same points raised some time ago by the appointment by resolution of Councilman Courtney, brother to the position of Street Sprinkler Inspector.

City Attorney James A. Johnson advised Auditor A. H. Bred at the time that officers could not be created by Council resolution, but must be created by ordinance and their salaries could not be legally fixed by a resolution.

City Treasurer Taylor does not see how Councilman Bishop's resolution will aid him.

Mr. Bishop's resolution went to a committee.

MARITAL TROUBLES ARE AIDED IN THE COURTS.

Mrs. Maud Abbott of Berkeley, who is seeking divorce from her husband on the ground of cruelty, has asked the court to compel her husband to pay \$40 per month alimony, \$150 for counsel fees, and \$50 for costs pending the trial.

Judge Hall has decided that William Davies, who has failed to pay his wife alimony, was unable to do so, and has accordingly dismissed the citation for contempt.

Eva Weston has been granted a divorce from John H. Watson on the ground of neglect.

Mary Davis secured a divorce from David Davis on the ground of desertion.

UNION SERVICES AT METHODIST CHURCH.

Union Thanksgiving Day services will be held in the First Methodist Church this year. A choir composed of members of the different churches will render special music, while the Rev. Ernest H. ORNITHOLOGICAL CLUB ELECTS NEW OFFICERS.

The Cooper Ornithological Club held an interesting session last Saturday evening at the residence of C. W. Randall in Piedmont. A new constitution was adopted, nominations of club officers were made and the names of President David Starr Jordan and Professor C. H. Gilbert of Stanford University were proposed for membership.

William L. Finley delivered an entertaining address on "The Bird Rocks of the Oregon Coast" and exhibited a series of curious photographs to illustrate his remarks. O. W. Howard presented a paper on "Experiences with the Prairie Falcon" and John M. Willard spoke on "Lassen County birds." The club has a membership of 150 and is a body interested in the study of birds.

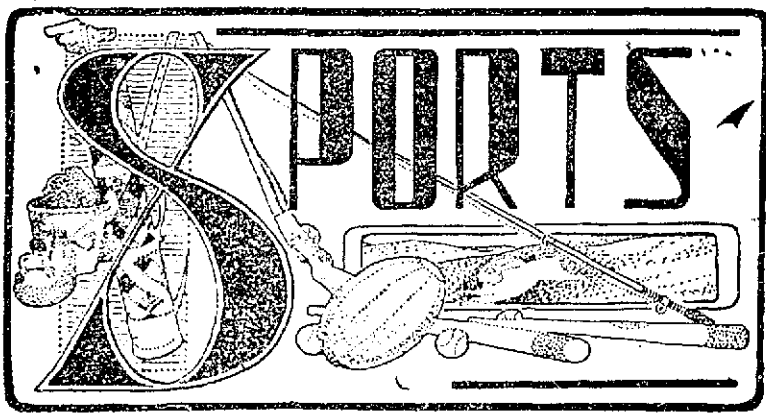

Joseph Gilman, the president of the club, was nominated for re-election and C. H. Gilbert of Santa Clara received the nomination for secretary.
One of the photographs shown by Mr. Finley was illustrative of the club's work as it showed wild birds feeding their young on Mr. Finley's band.

THE TURF.

The Western Union Telegraph Company is fastening its fangs on the race track pool-room privileges throughout the country in an effort to squeeze out all the juice for itself, leaving only the pulp for the directors of the New California Jockey Club, characterizing that portion of the emoluments as a pick-up. President Williams, on behalf of

conflict with the telegraph company at present. He naturally would rather take five dollars per day from the hundred rooms in New York than \$30 per day from five, which he is willing to accept to avoid trouble. All he asks is justice and to get that he is willing to take the matter out of the hands of the Western Union and place it with the Pinkerton Detective Agency at his own cost and expense, but the other side would not listen to him and would allow nothing but the pulp, the "pick-up," as they called it. From all parts of the country telegrams are pouring in on turf men ask-

the Association, could not see how the pulp was any more of a pick-up for the Jockey Club than the juice was for the Telegraph Company. (The wires are now out of the track, and the pool rooms all over the country are looking for information they cannot get and the Western Union is the biggest loser. When racing began here some years ago the Western Union was not as familiar with the game as it is now. Time and experience developed the fact that the race track pool privilege was a pretty good thing and in time the telegraph company absorbed all the business from the agents they had contracts with. Now nobody outside the manager's confidence can get a list of the pool rooms in operation, and any race track doing business with the company has to accept the manager's word for the number taking the service. In New York, for instance, over 100 rooms are at work yet the Jockey Club only receives pay through the Western Union for about five. At the rate of \$30 each per day. It is presumed that the others get the five. In Chicago, O'Leary of the Stockyards has several rooms running, but he only pays for one at the same rate. It is to stop this wholesale robbery of the privilege that Mr. Williams is in-

ing, imploring for information and the wires, but not a speck of any kind of matter can leave the track. The telegraph service inside the track, which amounts to considerable from the public, is completely and effectually tied up, and these inside shut off from the outside world while the races are in progress. How long this state of affairs will last remains for the Western Union to decide. It so happens that the company has a monopoly of this class of business or the thing would be very quickly settled. And another thing worthy of note is that any time the telephone is used to the disadvantage of the Western Union's business, a stop is made of it in a hurry.

There was quite a tip out on Censor and he was heavily played by the wise morning glories. Where there is so much smoke there must be a little fire, and perhaps it would be well to keep the weather eye on Censor. He ran well for a time and may have been just a little short.

Because of a rumor that he was a little sore the night before, Hard Knot receded in the betting. The story about the soreness was legitimate, for the horse pulled up quite lame.

Our Emeryville neighbor, Dr. Rowell, was very much in evidence with his colors yesterday. He never at 50, 10 and 5 got the show and John McGurk won

like a good race horse and was as good as 6 to 1 at one time.

Autolight showed a burst of speed on the turn out of the back stretch that was simply dazzling. He closed on his horses in a few jumps and so fast that it looked as if he would carry his jockey to the outside fence. But he came on through the stretch in good shape and managed to stall off Bangs' rush at the end.

Some of the bookmakers were hard hit yesterday. Joe Harlan lost \$3,000, and Martin dropped \$400, which is a big sum for him. All the books lost more or less except Jim Davis, who won nearly \$500.

Those who follow Willie O'Connor through the winter will not be looking for "get away" money when the races close next spring. Yesterday he had five mounts and was in the money four times. He won with Bedeck, was third with Midnight Chimes at two to one show, second with Evee Lance, three to one place and three to two to show, and third with Nona B, 21-2 to 1 to show. He is worth a bet, no matter what he rides.

There is one thing about the riding of Rinkenrath that is commendable—he always takes the shortest way home. In the first race yesterday it looked as if he was in a hopeless predicament, but he held to his position and it won the race for him. Had he lost his head and attempted to pull out around his field, Cousin Carrie would surely have won.

The sale of Prince Poniatowski yearlings last night at the Occidental Horse Exchange, 71 Howard street, was well attended, but the yearlings made a poor show and brought bad prices. Some of them sold as low as \$30, and judging by appearances, that price looked big. El Liebes, the San Francisco fur dealer, paid the highest price of the sale, \$1,235 for The Fog, a son of Magnet.

BOXING.

SAN FRANCISCO, Nov. 5.—It is a rare thing to find a pugilist in training to meet the champion confident of victory, but such is the case with Gus Ruhlin, who is getting in shape at the Six-Mile House to contest with Jeffries at Mechanics' Pavilion in this city on the night of Friday, November 15. Naturally, Jeffries is a favorite in the betting, but this does not seem to disturb Ruhlin in the least. "So Jeffries is the favorite in the betting," he said today, while being rubbed down after a hard run. "Well, that's only natural, for he is champion while I have yet to obtain that prominence. I was looking over the records last night, and I was surprised to learn the number of short ends that win in San Francisco. I never was more confident in my life, and why shouldn't I be? Jeffries hasn't improved much; I fought him a draw when I was only a novice four years ago. If on that occasion I had the same confidence I have now, I should certainly have won, as it was I had by long odds the better of the contest. But there is another way to do me out. Jeffries met Sharkey twice and failed to put him out in forty-five rounds, while I put the quistos on the heavy savior in fifteen rounds. Moreover, I am better now than I ever was in my life, and mark my prediction: I will be champion on the 15th day of November.

Ruhlin's stock is going up every day. His appearance, confidence and strength will last remains for the Western Union to decide. It so happens that the company has a monopoly of this class of business or the thing would be very quickly settled. And another thing worthy of note is that any time the telephone is used to the disadvantage of the Western Union's business, a stop is made of it in a hurry.

Jeffries and his champion Jeffries reach the Reliance Club by Thursday night their appearance will add much strength to the boxing exhibition which will be given by the club that night between Perry Queenan and Jack Kane. Beside the main event there will be two preliminary contests that are sure to attract attention, and taking everything into consideration a high class evening's entertainment is sure to result whether Jeffries gets here in time or not. This will be the last boxing show that will take place before the big championship affair, and it is to be hoped the big fight will be able to attend.

Jeffries is in no particular hurry to leave his pleasant surroundings at Hatin Springs, but Manager Kennedy of the Twentieth Century Club and other sporting men greatly interested in the championship fight are anxious to see him located near by where wild bucks and other ferocious animals of the forest can have no chance to maim or jar him. The publication of a serious accident to Charles Booth, the horseman, inflicted by an enraged young pot buck, has sent Kennedy's mind dancing to his head, and in his mind of this evening the accident happening to Jeffries on the eve of his departure for Oakland. The thought leaves him with the horrors and he jumps from his office chair and paces the office floor. Kennedy will need a long vacation after the big championship fight is settled. He will need a private

CHARLES HALL, MANAGER OF THE MACDONOUGH THEATER.

As each subsequent performance "Old Kentucky" was presented to full houses, and each performance since the opening has met with the same satisfactory response from the public. This shows how much value there is in the good name of a manager and a reputation for living up to promises. Last Sunday night and Sunday night is a hard theatrical stunt in Oakland—there was over \$50 in the Macdonough. Hereafter this has been considered a first class house in Oakland for a Monday night opening. The change is very pleasing and is evidence of the popular hit made by the new management.

While the flattering reputation established by Messrs. Hall & Barton has been a strong card in making the Macdonough popular, the efficient work of their local assistants has been a prime factor. Acting Manager Henry and Treasurer Guy Smith speedily demonstrated that they were men in the right place. They have thrown themselves into the work of rehabilitating the Macdonough with a will, and have greatly improved the public by their courtesy. Hall & Barton have shown excellent discrimination in selecting their assistants. In other respects they have treated Oakland handsomely. They bought all their carpets for refitting the theater in this city, and had all the frescoing and painting done by Oakland artists. In other words, the business of the Macdonough Theater has been given to Oakland tradesmen, which is another agreeable change from practices in the past.

COUNCIL AFTER LOTTERY DEALERS

Mr. Bishop Introduces a New Ordinance to Meet the Complaints.

An ordinance prohibiting the sale, possession or manufacture of lottery tickets, with a penalty of \$500 fine attached, was introduced at the meeting of the City Council last night. It was referred to the Ordinance and Judiciary Committee.

The ordinance is modeled after the lottery ordinance now in effect in San Francisco and will overcome the defects of the ordinance now in effect in this city.

The ordinance is as follows:

"Section 1. It shall be unlawful for any person to have in his possession any lottery ticket, or any ticket, bill, paper, device, certificate or instrument purporting to be or representing a ticket, chance, share or interest in, or depending upon, the event of a lottery; or any tool, instrument, stamp, die, cut or device used, or intended to be used in or for contriving, setting up, preparing, printing, stamping, writing or getting ready for sale or distribution any lottery ticket, used or intended to be used for contriving, preparing or producing a lottery or drawing of a lottery, or any tool, instrument, stamp or marking any statement or list of lottery tickets that have been sold, or marked as played, or having been played at or against a lottery or lottery drawing, or printing or stamping or writing, or getting ready for distribution lottery drawings or papers.

"Section 2. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 3. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 4. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 5. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 6. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 7. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 8. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 9. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 10. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 11. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 12. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."

"Section 13. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a fine not to exceed \$500 and in case said fine be not paid the person so fined may be imprisoned in the City Prison at the rate of one day for every \$25 imposed and remains unpaid."
